## IMPROVING SOIL HEALTH

We are currently undertaking in the South West of Western Australia the majority of our Corn Maize program. The story is based on improving soil health combined with the ability to then fine tune a **NUTRITION** based growing **PROGRAM** to fit the farmers vision and equipment.

We have success via more comprehensive parameters of soil analysis and leaf analysis. This property started with approx 15 ton per hectare and over 5 years has increased to reach an approx. 25 ton average.

**NO massive inputs as people assume!**

Our Carbon Systems Agronomy programs follow soil principles and plant physiology to achieve best possible outcomes.

## Pink and Grey ...It's not all black and white.

It's not about Granule versus Liquid either! With combining the two you are able to maximise productivity and achieve the best outcomes using the synergies of both technologies.

## Wheat head and Barley head

With dry season issues in so many regions, the picture above shows how grain heads can still be developed. Our programs and products are able to maximise in grain fill to continue to assimilate despite severe Osmotic Pressure. Our CSA program has the ability to manipulate soils and plants in their different growth phases to deliver the appropriate elements required at the ideal time for the system to maximise productivity. This also provides the ability to protect the Xylem and Phloem to keep it pumping/functioning longer given yet again the climatic conditions that Australia has experienced this year.

## StockLiks Special

THE SUPER SMART DRY FEED STOCKLIK THAT

- MAINTAINS EXCELLENT STOCK CONDITION
- **URNS FEED CONVERSION AND WEIGHT ON!**
- SUPPORTS THE ANIMALS RUMEN TO IMPROVE OVERALL HEALTH AS WELL AS SPERM COUNT, PREGNANCY RATES, ESTABLISH NEW BORN RUMEN HEALTH FOR LIFE AHEAD

**22Kgs DRY SOLID BLOCK**  
No Water & No Useless Grit in Our Blocks!

**FROM** \$38 WRAPPED & BOXED\* = \$1.72 PER KILO (WA/TAS)  
**FROM** \$34 WRAPPED & BOXED\* = \$1.54 PER KILO (SA/VIC/NSW)

**RANGE INCLUDES:**

Stubbler, All Purpose, Supergrade & more

**STUBBLER TYPICAL ANALYSIS**  
IODISED SEA SALT, BLACK STRAP MOLASSES, REACTIVE CARBON, SULPHUR, CAL-CARBONATE, CAL-SULPHATE, DI-CAL PHOSPHATE, 440 GMS LOW BIURET UREA & TRACE ELEMENTS (MG/KG) MANGANESE-670 COPPER-357 ZINC-323 IRON-245 IODINE-100 COBALT-45

### SEMI-LOAD OF STOCKLIKS SPECIAL OFFER\*

- \$40 OFF 1X LAYER 20 BLOCKS
- \$80 OFF 2X LAYER 40 BLOCKS
- \$160 OFF PALLET 60 BLOCKS

**OFFER ENDS ON DEC 13**

VIC (WA) 0437 021 712  
MAT (VIC/NSW/TAS) 0439 973 759  
OFFICE 08 9725 6877

\*Plus GST/ In-State Delivery -  
Ex Depot WA - Perth/ Bunbury SA - Ex Adelaide  
VIC - Ex Melbourne TAS - Ex Launceston
