

Ferti-SeaMax™

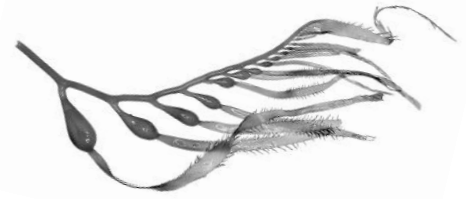

Best Value Formulation & Naturally Complete

Ferti-SeaMax™ Seaweed, Kelp & Fish Concentrate

Formulated with a non-ionic surfactant for maximum wetting and penetrative effectiveness, Ferti-SeaMax™ contains a vast array of instantly usable nutrition for all broad acre, horticulture, tree cropping and pasture applications.

Seagrass extracts, rich kelp concentrates (including alginates, amino acids, trace elements and plant hormones) digested fish, fulvic and humic acids, brix building stimulants and more. Ferti-SeaMax is the complete biologic package for naturally balanced growth, vitality and yield.

Ferti-SeaMax Fish emulsion is a stabilised hydrolysate that has enzyme digested guts, bones, scales, cartilage and meat for complete and highly available plant use of its Nitrogen, Calcium, Potassium, Phosphorus and Sulphur with many Trace Minerals present including Selenium. You can also use Ferti-SeaMax with Liquid Inject applications to quickly build up beneficial soil biology. Ferti-Tech have purposefully created Sea-Max to be a very cost-effective formulation that will out-perform many comparable kelp/fish versions on the market.

FertiSeaMax™	% w/v

Application

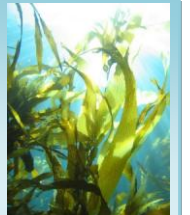

- **Broadacre Crops and Pasture** 2% - 3% Cart Water as Required or at first sign of Stress
- **Vegetables/Herbs** 2% to Cart Water every 2 - 3 weeks
- **Tree Crops & Shrubs** 1% to Cart Water and Irrigation Water prior to Flowering and prior to Fruit Set
- **Turf** 1.5% to Irrigation Water on establishment. 0.5% whenever extra growth, greenery or root depth required.
- **Plant Repair** 5% to Leaf and Soil Water
- **Stubble Digestion Aid** For Use with Molasses, Fulvic Acid and Fish Emulsion Formulations (refer FTA)

Ferti-SeaMax is designed to quickly build several % points on plant sugar levels for improved health, better quality produce and to provide a better resistance to pests and disease. Also stimulate a far more vigorous root growth with humus forming exudates for improved plant nutrition and better soil health.

Ferti-SeaMax contains Seagrass and Kelp Concentrates

- Brix building stimulants provide increased protection from frost
- Amino Acids and Potassium for improved flowering and fruit set
- Natural Plant Growth Hormones for increased leaf and root mass

Use Ferti-SeaMax as an excellent Stock Feed Supplement. Apply to feed 2-5mls per day
