

# Ferti-Fish™

"Foliar/Fertigation"

## Ferti-Fish

Ferti-Fish is a Natural Balanced Liquid Fertiliser that can be used for a wide range of plant applications. Ferti-Fish was specifically designed for a number of general applications, including:

- BroadAcre Foliar Application
- An additive to Seedling mixes
- Soil conditioning prior to planting
- Direct, side spray & dripper application for Horticultural & ornamental plants & trees
- Pasture and Crop top dressing
- A Bio Booster ingredient for Composting
- As an ingredient in aquaculture feed
- Key input in Certified Organic systems

**This feed stuff contains restricted animal material**

**DO NOT FEED TO CATTLE, SHEEP, GOATS, DEER OR ANY OTHER RUMINANTS.**

**LOW-TEMP FERMENTED  
NATURAL BIO-  
STIMULANT  
100% EMULSIFIED  
FISH**

**Phosphorus, Potassium,  
Calcium, Magnesium, Trace  
Elements**

**Microbial Stimulants, Amino  
Acids, Enzymes, Long Chain  
Fatty Acids**

Fish emulsion makes plants more Resilient, stronger roots and this makes plants more Resistant to Pest and Disease. The additional Natural Amino Acids, Proteins, Fats and Oils increases Soil Health and Microbes in the soils profile, creates a thin Microbiome on leaf surfaces and is a key Carbon Systems Agronomy input that underpins several parts of our growing programs.

### Application

- **Trees and Vines:** 10-15Lt/Ha as a ground application under the drip line prior to bud burst or quickening, followed by a similar application 2 weeks after bud burst. Thereafter 10Lt/Ha at 21 day intervals through drip lines or foliar spray. Foliar spraying of fruit is not recommended within 2-3 weeks of harvest.
- **Vegetables:** 20-30Lt/Ha at 14 day intervals commencing 1-2 weeks after planting, or half rate at 7 day intervals. For all crops discontinue foliar application 2 weeks before harvest.
- **Pasture/Turf Seedling Mix:** 15-25Lt/Ha at 21 day intervals during growth period. Add Ferti-Fish Nutrient to raw compost base at the rate of 50Lt/Ton. Turn regularly, and when mature use as usual.

**RISK:** DO NOT Mix with other plant foods, pesticides, etc without prior testing for compatibility.

**Ferti-Fish is Certified Organic product and underpins Organic Farming Systems**
