

# Ferti-Complete

Horticulture – Broadacre – Pasture – Grazing – Turf  
Fertiliser Blend

**FERTI-TECH**  
Australia Pty Ltd

Ferti-Complete	% w/v
Nitrogen	11.16
Phosphorus	10.82
Potassium	8.37
Sulphur	7.91
Calcium	1.35
Magnesium	0.87
Iron	0.41
Manganese	0.008
Zinc	0.018
Silicon Complex	2.85

Trace Copper, Boron, Molybdenum,  
Cobalt with Bacterial and Fungi  
Inoculum Stabilised in Carbon.

Complexed Humic Acids.

15+% Carbon/Silicon Compounds

**Bacillus Polymyxa Bacillus Subtilis**

**Azotobacter Chroococcum Trichoderma**

**Harzianum**

Proven Microbial Agents for Nutrient  
Release and Fertile Soil Systems

## Recommended Application Rates:

Horticultural Vegetables  
150-250kg/Ha

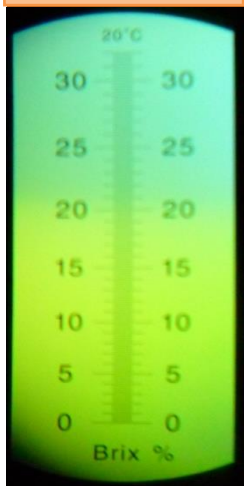

Vineyards  
100-150kg/Ha

Orchards  
100-300kg/Ha

## Ferti-Complete

Designed to provide longer-lasting Nitrogen with a balanced Phosphorus, Potassium and Trace Support, Ferti-Complete has provided a new opportunity for growers to maximise yield through buffered and Smart-Carbon Nutrition support. Ferti-Complete ensures a strong stable Nitrogen base that does buffer tap roots and laterals that suffer clubbing or turn at right angles' away from a concentrated high analysis salt and chlorides, often also found in recycled water. The BioActive in Ferti-Complete assists making the grow zone microbe friendly, chemically rich & pH balanced. Ferti-Complete can drive strong tap roots and open up more laterals for better nutrient uptake and overall healthier development. Support Micro-Nutrients, Trace Elements and Biological Inoculums come pre-mixed for a quicker response as growth and development occur. Ferti-Complete is a key fertiliser application option in the Ferti-Tech growing Programs.

Recommended Spreading Rate  
**100kg - 200kg per Hectare**  
See Ferti-Tech Australia for Current Prices per Tonne Ex.  
**South Australia**  
**Victoria**  
**Western Aust**  
**New Sth Wales**  
**Tasmania**

**Ferti-Complete spreads easily and is supplied as a DRY WEIGHT product that is not subject to the "wet content" issues of some Mineral Mixes.**

Unlike other Fertiliser Blends, Ferti-Complete is fully Bio-Active and aids aggregation and conductive balance in the soil increasing space and separation between soil particulates. Also, at the same time, acting as a remediation and highly reactive carbon source that can absorb toxins and reverse any salt affected patches. The High Performance General Purpose Pasture Fertiliser that has far more to offer the soil and a bonus to animal health!
