Ferti PHAT-Maxtm

Soil Only Injection Liquid – Phosphorus and Trace

Ferti PHAT-Maxtm

High Analysis Soil Only Injection Liquid – Phosphorus and Trace

Designed to provide a chelated high analysis nutritional input for all types of Liquid Fertiliser Injection systems. Ferti PHAT-Maxtm harnesses the upfront strength and energy of Ortho-Phosphorus in a longer lasting and highly plant available format. Also formulated with a very significant supply of elemental Zinc, Copper and other Trace Elements. Ferti PHAT-Maxtm provides Strong Phosphorus for better root formation, growth, energy and respiration. The Copper, Sulphur, Zinc and Manganese (supporting P) also improve chlorophyll production, CO₂ synthesis, root development, disease resistance and sugar build. Uptake of Boron and Molybdenum assists enzyme and amino acid systems and specifically promote in-soil Calcium and Nitrogen uptake.

Ferti PHAT-Maxtm delivers the 'smarter formula'
QUANTITY and QUALITY of Phosphorus AND Traces.
Together they Work Exceptionally Well.

Preparation

- Always Add into Cart Water – Can be Mixed Neat or Directly with UAN. Do not Mix with any other Formulations.
- Very Low pH Product. Handle with Care. Refer to MSDS

BroadAcre Application

- Application amount Dependent on Soil Profile, Expected Yield and Paddock History/Rotations. Soil Testing Recommended
- 20-60 Litres per Hectare BroadAcre Cereals, Pulses and Oilseeds.
- Highly Recommended for use in 2 Stream Injection with Ferti-PUMP-Ntm. **Dual Stream Chelating with Ferti-PUMP-Ntm creates a Highly Capable 'Grow-Zone'**
- Ferti PHAT-Maxtm can be Combined with Liquid UAN for a Complex Nitrogen Mix.

DO NOT Mix Ferti PHAT-Max with Ferti-PUMP-N in Cart Water

Ferti PHAT-Maxtm % w/v

Phosphorus	20.35
Zinc	4.50
Copper	1.25
Manganese	0.61
Sulphur	0.58
Boron	0.21
Molybdenum	0.04

40 Litres of Ferti PHAT-Maxtm provides

- **8.5 Units Phosphorus**
- **1.8 Units Zinc**
- **0.5 Unit Copper**
- **Significant Boron, Manganese, Sulphur and Molybdenum.**

Supplying Many Kilos of Pure Nutritional Form into the Grow-Zone. All in a Highly Plant-Available Elemental Form. FTA formulate Performance In-Furrow Liquid Fertilisers that are Proven to Work!

Also Suitable for use in Drip and Underground Irrigation for Tree Crops, Viticulture and Horticulture.

Caution Ferti PHAT-Maxtm is NOT a Ferti-Foliar Product. Do not spray directly onto Crops or Leaf
